Taking Time Off, Still Searching

*Data from the 2016 Graduating Student Survey: 56.8% response rate

What are alumni doing?

EMPLOYMENT

National Institutes of Health

GRAD SCHOOL

As a Columbia Electrical Engineering major, I can...

Design and conduct experiments

Function on multidisciplinary teams and communicate effectively

Use appropriate data analysis to interpret the results of experiments

Develop mathematical models in order to test hypotheses

Construct, evaluate, and interpret qualitative and quantitative data

Recognize and understand the ethical issues involved in conducting experiments

Use critical thinking skills to overcome obstacles and achieve desired results
